

### *Unions Are A Voice*

PEOPLE WITH THE SAME CONCERNS OFTEN GET TOGETHER TO TALK AND LOOK FOR ANSWERS. That's exactly what a union is all about. It is people coming together and voicing their mutual concerns. By saying, "UNION YES," they make life better on the job for their families and for the entire community.

### *Unions Are Families*

OUR FAMILIES ARE SHAPING OUR LIVES AND OUR NATION'S LIFE. The working people in unions want to be sure the family remains vital. With the changes in today's economy, that can be tough. But today's unions are searching for new ways to adjust to the challenges affecting all members of the family, with ideas like affordable child care, help for senior citizens and family and medical leave for emergencies. By working together to see these ideas become realities, union members are helping to overcome the changes facing the family.

### *Unions Are Working People*

OVER THE YEARS THEY HAVE MADE THIS COUNTRY GREAT, BRINGING PROSPERITY AND GROWTH. From actors to truck drivers to teachers to woodworkers, they have worked to make life better on the job through their unions. Today they're working to make sure that their workplace is safe and that their jobs are secure. That makes their communities safe and secure as well.

### *Safety*

In today's modern workplace, it means having the right to know what hazards exist and what precautions should be taken.

### *Security*

With today's economic changes, it means having a voice on issues that will affect an industry and a worker's future.

**It's not too much to ask for a common sense approach to safety and security.**
